

## High School Project Based Learning (PBL) Weekly Update # 7

---

### Driving Questions and PBL Webinar

For many teachers, one of the trickiest parts of designing a project is coming up with a Driving Question (DQ), or writing one with students. This webinar will discuss the **purpose of a DQ**, see **several examples from various K-12 grade levels and subject areas**, and **practice refining them to make sure they're open-ended, engaging for students, and linked to the core focus of the project**.

This is a YouTube video and I would suggest that you view it in chunks throughout the week as it is almost an hour in length. Keep track of where you left off using the time scroll/line above the volume button. It is worth watching and very informative.
